

Printing Pages

Due to the left side navigation bar, some web pages you choose to print may not print in entirety. In order to print the pages in their entirety, setting the printing parameters to Landscape will accomplish this.

Setting the print parameters to Landscape in Internet Explorer or Netscape Navigator:

Select File > Print

When the dialog box appears select "Properties"

On the next dialog box appears, select the radio button under Orientation for Landscape.

Click OK

Then click OK again to begin printing
